**Surgeons Say the Foot-Racer's Wound May Not Prove Fatal.**

**Dolan Identified in the Hospital by His Victim To-Day.**

HARRISON, N. J., April 17.—James, alias "Cuckoo," Collins, the foot-racer, who was shot yesterday afternoon by Patrick J. Dolan, a saloon-keeper at 94 Pacific street, Newark, has a fair chance to recover.

The physicians at St. Michael's Hospital, Newark, where Collins was taken, think that he will probably pull through. The wound has not yet been probed.

The shooting grew out of Collins losing a race with James Green at the Kearny Athletic Grounds yesterday afternoon. Dolan, who was Collins' backer, lost some \$500. As Collins was coming back to dress after the race Dolan walked up behind him, and without saying a word shot him in the back just over the right hip.

Dolan used a .32-calibre fire-shooter, and after the shooting stopped the empty shell and four loaded cartridges on the floor, where they were found by Matthew Smith and William Brown.

George Hermann, James Millett and William Parrott all saw the shooting. Their evidence was taken this morning by Chief of Police Mulligan. Of Harrison, Dolan was arrested soon after the shooting and locked up at the Harrison police station.

This morning Dolan was taken to St. Michael's Hospital, where Collins identified him as the man who shot him.

Dolan made no denial then, but at the station soon afterwards he said that he did not shoot Collins; that it was some other man.

He admitted having told Collins that he would shoot him if he did not act fairly with Dolan.

Dolan will be committed to the Hudson County Jail this afternoon without bail, and will await the result of the Collins case.

Collins is twenty-eight years of age and lives at 310 East Eleventh street, New York. He has a mother in Wisconsin. For some time past he has been with Barnum's circus, running races against horses.

Coroner Notified to Investigate Amos Hawken's Death.

Amos Hawken, twelve years old, of 737 Third avenue, died this morning at 3:45 o'clock at his father's residence.

According to the police, the cause of death was not known this morning, and the Coroner was notified to make an investigation.

Last Wednesday Amos Hawken was on Forty-second street, between Second and Third avenues. John Kerrigan, sixteen years old, whose residence is not known, walked up behind Hawken, it is alleged, and struck him a blow with his clenched fist on the back of the neck.

The boy went home, and immediately after was taken ill.

John Kerrigan's father was told by the doctor that he did not think his son's death was caused by Kerrigan's blow.

## NEGRO CONVICT RUNS AMUCK.

**Kills One Prisoner and Wounds Three Others at Auburn.**

**Finally Shot by a Keeper—The Dead Man from Westchester County.**

AUBURN, April 17.—John Johnson, who is known as "the blue nigger from Clytie," ran amuck in the prison shop of Auburn Prison this morning.

He was armed with a sharp knife used in cutting broom-corn, and first attacked Charles Peck, a fellow-convict, from Westchester County. Leaving Peck dead in his tracks, he next fatally stabbed another convict and wounded two others before he was shot by a keeper and rendered powerless.

Johnson was first sentenced to Auburn for ten years for assault in the first degree. He was released a year ago, in January. He was re-arrested at the state prison for burglary, and was taken back to Auburn for trial on other indictments. He came back on a sentence of four years and had not given any trouble until this morning. He had also served a term in Sing Sing for receiving stolen property.

Charles Peck, his victim, was sentenced from Westchester County in 1889 for burglary in the first degree to thirteen years.

**DR. KEELEY KEEPS HIS SECRET.**

**The Gold Cure for Drunkenness Has Not Been Sold.**

The Chicago despatch printed in the morning papers announcing the sale of the Gold Cure for Drunkenness, a business to a syndicate of New York capitalists for \$100,000, seems to be a trifle premature, although not entirely unwarranted.

According to the Chicago despatch all that was lacking to consummate the deal turning over the plants of the Dwight, White Plains and other Keeley institutions in the United States to the New York capitalists was the signature of Dr. Keeley, who was said to be in New York to close the matter up.

To an "Evening World" reporter Arthur F. Vane, a broker on the Consolidated Exchange, whose brother runs a bichloride of gold cure institution at Hazelton, Pa., reputedly backed by his cousin, Fred Gebhard, said:

"This deal has been talked of for a week or two, and while I know the parties who are interested in it, I am not at liberty to disclose their identity. If the deal is consummated it will probably be in Chicago. So far the announcement is very premature."

Dr. Keeley, who is undoubtedly at the Fifth Avenue Hotel, is said to have said that Dr. Keeley was not stopping there. Neither could Mr. Gebhard be found at his residence, 100 Fifth avenue.

During the morning the Kieran News Agency sent out this announcement over its tickers:

"The statement in a morning paper that the Gold Cure for Drunkenness had been sold for \$100,000 is incorrect. There is no sale contemplated."

**ARGENTINE CRUISER ARRIVES.**

The New Nine de Julio, of 28 knots, Anchors Off Tompkinsville.

The Argentine cruiser Nine de Julio, Admiral Enrique G. Howard, Capt. Martin Navarro, from St. Michael's, arrived April 17, at quarantine at 10:30 this morning, and anchored off Tompkinsville, Staten Island.

The cruiser was built by Sir William Armstrong, Mitchell & Co., Newcastle, England, and completed to-day her first voyage.

She is a formidable fighting craft, and has a crew of 450 officers and men. She mounts twelve large guns and twenty-four quick-firing guns.

If the representations of her officers are correct this voyage she steamed at the rate of twenty-four knots, the extent of about 20,000 miles, and is the fastest cruiser afloat.

The Nine de Julio left the hands of the builders at Bahia, Chile, on March 1, and has since that time been on a tour of inspection, visiting various ports and coasts.

She will take on a supply of coal at this port and proceed to Hampton Roads to join the fleet.

"Those who have not been afflicted with dyspepsia have no conception of the misery endured, and those that are need no description of the horrors of the unfortunate dyspeptic."

"This is why I have been so much in need of patent medicines. An old friend had been afflicted for many years with dyspepsia, and for many months I noticed that he had been gradually improving. I ascertained that the great change had been wholly wrought by the use of Hood's Sarsaparilla. He advised me to try it by all means, but the idea of no taking 'patent medicine' was very bitter pill to swallow. But, urged by my great sufferings to do so, I finally yielded and began to take

**PLANS OF THE ART SOCIETY.**

**A Public Meeting to Discuss the Beautifying of the Metropolis.**

**Competitions Open to Both Sexes to Be Held from Time to Time.**

The Municipal Art Society, the object of which is to endeavor to raise the artistic standard of public works in this city, including the monuments and statues to be erected in the parks and other public places, will soon complete its permanent organization and begin a position to carry out its plans.

The gentlemen interested in this work, who comprise nearly all of the prominent artists of the city, met at the Century Club, on Saturday evening and discussed matters in an informal way. They have appointed a committee consisting of William A. Coffin, J. Evans and William B. Bigelow to promote public interest in the enterprise, and have already elected some of their officers, including Richard M. Hunt, President; Edward M. Kendall, Vice-President; Edward Hamilton, Secy., and William B. Bigelow, Treasurer.

The first thing to be done is to call a public meeting, which will be held at the Century Club, on Saturday evening, April 24, at the rooms of the Architectural League of New York, 310 West Fifty-seventh street. A full board of permanent officers and an executive committee of twelve will be elected, and the work will be begun in earnest.

It is expected that about 6,000 invitations will be issued, and the plans and purposes of the society will then be fully discussed. There are hundreds of people in this city who are interested in the project, and who will be glad to assist in the work.

It is intended to secure a membership of at least two thousand men, women and children, and to make the society a permanent one.
